Paediatric urology: Upper urinary tract
Poster Session 23

Saturday 16 March
14:15 - 15:45

Location: Green Area, Room 20
Chairs: B. Burgu, Ankara (TR)
M. Eissa, Cairo (EG)
B. Haid, Linz (AT)

Poster viewing of 20 minutes. Presentations will take place on stage. Standard presentations are 2 minutes in length, followed by 2 minutes for discussion. Extended presentations (*) are 3 minutes in length, followed by 3 minutes for discussion.

* 316
Anatomical aspects of the kidney surface in human fetuses during the second gestational trimester

By: Lobo M.L.P., Favorito L.A., Sampaio F.
State University of Rio de Janeiro, Urogenital Research Unit, Rio de Janeiro, Brazil

317
Isolated bilateral low grade antenatal hydronephrosis: Clinical outcome

1Prince Sultan Military Medical City, Dept. of Urology, Riyadh, Saudi Arabia, 2King Fahad Specialist Hospital, Dept. of Urology, Dammam, Saudi Arabia

318
Complex renal cysts: Examining the applicability of modified Bosniak classification for children

By: Frumer M., Shenhar C., Konen O., Shpira-Rootman M., Livne P.M., Ben Meir D.
1Schneider Childrens Medical Center of Israel, Dept. of Urology, Petach Tikva, Israel, 2Schneider Childrens Medical Center of Israel, Dept. of Paediatric Radiology, Petach Tikva, Israel, 3Schneider Childrens Medical Center of Israel, Petach Tikva and Sackler Faculty of Medicine, Tel Aviv University, Dept. of Urology, Tel Aviv, Israel

319
Laparoscopic and robotic-assisted repair of retrocaval ureter in children: A multi-institutional comparative study with open repair

By: Esposito C., Masieri L., Valla J., Lopez P.J., Tokar B., Mushtaq I., Sforza S., Venturini S., Escolino M.
1Federico II University of Naples, Dept. of Pediatric Surgery, Naples, Italy, 2University of Florence, Dept. of Urology, Florence, Italy, 3CHU Lenval, Dept. of Pediatric Urology, Nice, France, 4Hospital Exequiel Gonzalez Cortes & Clinica Alemana, Dept. of Pediatric Urology, Santiago, Chile, 5Eskisehir Osmangazi University, Dept. of Pediatric Urology,
320 Robot-assisted laparoscopic pyeloplasty (RALP) in children with horseshoe kidneys: Results of a multicentric study

By: Esposito C., Masieri L., Blanc T., Manzoni G., Silay S., Cerulo M., Venturini S., Escolino M.

1 Federico II University of Naples, Dept. of Pediatric Urology, Naples, Italy, 2 University of Florence, Meyer Children's Hospital, Dept. of Pediatric Urology, Florence, Italy, 3 Hopital Necker-Enfants Malades, Dept. of Pediatric Urology, Paris, France, 4 Ospedale Maggiore Policlinico, Dept. of Pediatric Urology, Milan, Italy, 5 Istanbul Medeniyet University, Dept. of Pediatric Urology, Istanbul, Turkey

321 Do the body weight influence outcomes of robotic pyeloplasty in children?

By: Masieri L., Cini C., Venturini S., Sforza S., Mari A., Longo M., Minervini A., Carini M.

University of Florence, Dept. of Urology, Florence, Italy

322 One week stenting after pediatric laparoscopic pyeloplasty: Is it enough?

Kasr Alainy Hospital, Cairo University, Dept. of Urology, Cairo, Egypt

323 Outcomes of externalized pyeloureteral versus internal ureteral stent in pediatric pyeloplasty: Single center experience

Habib Thameur Hospital, Dept. of pediatric surgery, Tunis, Tunisia

324 Surgical outcome of robot-assisted laparoscopy pyeloplasty in children with no drainage placement for ureteropelvic junction obstruction

By: Venturini S., Cini C., Longo M., Cito G., Morselli S., Minervini A., Carini M., Masieri L.

University of Florence, Dept. of Urology, Florence, Italy

325 Correlation of renal scarring to urinary tract infections and vesicoureteral reflux in children

1 Burjeel Hospital, Dept. of Urology, Abu Dhabi, United Arab Emirates, 2 Al-Azhar University Hospital, Dept. of Urology, Cairo, Egypt, 3 Suez Canal University, Dept. of Pediatrics, Ismailia, Egypt, 4 Burjeel Hospital, Dept. of Pediatric Surgery, Abu Dhabi, United Arab Emirates
