**Advanced robotic reconstructive and re-do surgery**

ESU Course 1

**Thursday 12 September**

10:30 - 13:00

**Location:** Auditorium II

**Chairs:**
- H. John, Winterthur (CH)
- A. Ploumidis, Athens (GR)
- A-F. Spinoit, Ghent (BE)

### Aims and objectives of this session
Reconstructive and Re-do robotic urology is a rapidly evolving field. Growing experience and new technology allow to reconstruct lower and upper urinary tract more and more by minimal invasive robotic technology with good functional outcomes. This has a major impact as most of these patients had previous surgeries.

10:30 - 10:35

**Introduction and current evidence**
H. John, Winterthur (CH)

10:35 - 10:50

**Pyeloplasty and ureteral reimplantation**
A. Ploumidis, Athens (GR)

10:50 - 11:05

**Pediatric pyeloplasty and heminephrectomy**
A-F. Spinoit, Ghent (BE)

11:05 - 11:20

**Vesico-vaginal fistulae**
H. John, Winterthur (CH)

11:20 - 11:35

**Sacrocolpopexy**
A. Ploumidis, Athens (GR)

11:35 - 11:50

**YV-Bladderneck- reconstruction**
H. John, Winterthur (CH)

11:50 - 12:05

**Utriculus cyst and Müllerian remnants**
A-F. Spinoit, Ghent (BE)

12:05 - 12:25

**Bladder diverticula**
A. Ploumidis, Athens (GR)

12:25 - 12:55

**Reconstructive bladder surgery: Neobladder and Conduit**
H. John, Winterthur (CH)

12:55 - 13:00

**Conclusions and consensus**
A. Ploumidis, Athens (GR)
