The new EAU guidelines on Male Sexual and Reproductive Health: Challenges and controversies
Thematic session 12

Monday 23 March
10:30 - 12:00

Location: Green Area, Room 1
Chairs: S.S. Minhas, London (GB)
A. Salonia, Milan (IT)

Learning objectives of this session
The previous and historical guidelines topics on sexual dysfunction, male infertility and hypogonadism have now been amalgamated into a single guidelines topic (SRH), with the specific aim to further develop the concept of men’s health. In this dedicated thematic session, the SRH guidelines group will present the new EAU guidelines on SRH. In particular the session will focus on novel and controversial areas in the new guidelines.

10:30 - 10:35
Introduction: A novel and evidence based approach for Men’s Health
S.S. Minhas, London (GB)

10:35 - 10:45
