7th ESO Prostate Cancer observatory: Innovations and care in the next 12 months
Special session

Friday 20 March
10:45 - 13:00

Location: Purple Area, Room Elicium 2
Chairs: A. Deschamps, Antwerpen (BE)  
R.J.A. Van Moorselaar, Amsterdam (NL)

Learning objectives of this session
ESO Observatories are high-level sessions organised during major international congresses with the aim of providing the audience with updated and unbiased information on a given topic. An ESO Observatory lasts about one hour and concentrates on a forecast given by panel of experts of what it is expected to happen in their own field in the coming 12 months. The Panel includes distinguished clinicians and/or scientists and a patient advocate. The forecast by each Panel Member is given in the form of concise take-home messages with 8-minute slide presentation followed by 2 minutes of discussion for each topic. The forecast will be discussed by the panel.
