Rare and complex urology: Treatments and complications
Poster Session 33

Saturday 18 July 16:00 - 17:30

Location: Grey Area, Room Emerald
Chairs: To be confirmed
To be confirmed

Poster viewing of 20 minutes. Presentations will take place on stage. Standard presentations are 2 minutes in length, followed by 2 minutes for discussion.

438 Surgical technique of laparoscopic nephropexy using TVT (Tension free Vaginal Tape) for patients with symptomatic nephroptosis
By: Ameli G. , Weibl P. , Prüger L. , Hübner W.A.
Clinic of Korneuburg, Dept. of Urology, Korneuburg, Austria

439 Our experience at retrograde thulium fiber laser endopyelotomy
To be confirmed

440 Salvage surgery based on retroperitoneal laparoscopic ureterolysis for intractable urinary tract problems
By: Sato M. 1, Kaiho Y. 2, Kawamorita N. 1, Yamashita S. 1, Mitsuzuka K. 1, Arai Y. 3, Ito A. 1
1Tohoku University Graduate School of Medicine, Dept. of Urology, Sendai, Japan,
2Tohoku Medical and Pharmaceutical University, Dept. of Urology, Sendai, Japan,
3Miyagi Cancer Center, Dept. of Urology, Natori, Japan

441 Robotic salvage cystectomy post radiotherapy: It's feasible
To be confirmed

442 Outcomes of robot-assisted cystectomy with total intracorporeal ileal conduit for neuro-urological patients
To be confirmed

443 Long-term outcomes of artificial urinary sphincter in female patients with spina bifida
To be confirmed

444 Intestinal plastics of the ureter with postradiation strictures
To be confirmed

445 Optimizing use of antibiotics in endourology - a study based on population based bacterial surveillance for limiting antibiotic resistance in India
To be confirmed

446 Comparison of a sheath dilator and cold knife internal urethrotomy for the treatment of male short segment urethral stricture
To be confirmed

447 A national approach to benchmarking nephrectomy practice in patients with benign renal disease: An analysis of the British Association of Urologists (BAUS) complex
