ESU/ESFFU Hands-on Training Course in Urodynamics
HOT03

Location: Grey Area, Room G109
Chair: H. Hashim, Bristol (GB)
Tutors: A. Gammie, Bristol (GB)
A. Garcia Mora, Mexico City (MX)
C. Harding, Stockton on Tees (GB)
L. Thomas, Bristol (GB)

Learning objectives of this session
This course aims to provide a practical course offering an interactive “hands-on”
environment for doctors, nurses and technicians to improve their skills in
urodynamics, with an emphasis on practical aspects including equipment used,
interpretation of traces, quality control and trouble-shooting. The use of
recorded tests, access to equipment and small groups means that individual
problems can be addressed. All the speakers are involved in similar “hands-on”
courses, which have ran successfully in the United Kingdom and abroad in
major international conferences. The small group format has been shown to
work well in addressing individual needs. Access to teaching aids and
equipment will simulate the clinical scenario as much as possible within the
constraints of the conference setting. The aim is to teach and emphasise good
Urodynamics practice using accepted international standards. At the end of the
workshop delegates should feel more confident in their practice of urodynamics.
