Urology by exploring: New experimental technologies and techniques in benign urogenital reconstruction

Expert-Guided Poster Tour 2

Saturday 17 March
16:00 - 17:00

Location: Green Area

Chairs: D.J.M.K. De Ridder, Leuven (BE)
J. Rassweiler, Heilbronn (DE)
To be confirmed

The Expert-Guided Poster Tour is a new innovative session type. The Tour aims to provide an interactive platform informing delegates on the real essentials and providing in-depth information on the different research projects. The Expert-Guided Poster Tour consists of two parts: The first part is reserved for poster viewing. The posters will be on display for 2 hrs before the start of the Guided Poster Tour. During the second part of the Tour, the two experts acting as moderators, will ask questions to poster presenters.
