ESU/ESFFU Hands-on Training Course in Urodynamics
Sponsored by MEDKONSULT MEDICAL TECHNOLOGY, MEDICA

Sunday 18 March
13:00 - 16:00

Location: Yellow Area, Room 3 (Level 0)
Chair: H. Hashim, Bristol (GB)
Tutors: L. Thomas, Bristol (GB)
A. Garcia Mora, Mexico City (MX)
A. Gammie, Bristol (GB)
M. Drake, Bristol (GB)

Aims and objectives of this session
This course aims to provide a practical course offering an interactive “hands-on” environment for doctors, nurses and technicians to improve their skills in urodynamics, with an emphasis on practical aspects including equipment used, interpretation of traces, quality control and trouble-shooting. The use of recorded tests, access to equipment and small groups means that individual problems can be addressed. All the speakers are involved in similar “hands-on” courses, which have ran successfully in the United Kingdom and abroad in major international conferences. The small group format has been shown to work well in addressing individual needs. Access to teaching aids and equipment will simulate the clinical scenario as much as possible within the constraints of the conference setting.

The aim is to teach and emphasise good Urodynamics practice using accepted international standards.
At the end of the workshop delegates should feel more confident in their practice of urodynamics.
